

Read me → Module d'actualités for Prestashop (prestashopnews).

1-Installation

Go to module tab and click on load module.

Choose files .zip and click on load module, then look for the module and click on install.

By FTP :

Connect to your server FTP using a software (ex:filezilla)

Unzip the .zip file, and drag the folder in your /modules folder.

Go to prestashop, in tab module, look for the module and click install.

2 - Configuration.

- In the configuration you can choose the number of news to display on columns.

2a) – Ajouter une actualités

You can see that when the module is installed, a tab in the administration menu is generated, it must simply click on the submenu "all news»

Once you click on "All News"

You see the list of events and you can simply adding clicking on the button "Add" in the navigation bar.

A screenshot of the 'Actualités' list view in the Prestashop administration panel. The page title is 'Actualités > Toutes les nouveautés'. At the top right are buttons for 'Créer' (Create), 'Filtre' (Filter), and 'Réinitialiser' (Reset). Below is a table with two rows of data. The columns are labeled 'ID' and 'Titre'. Row 1: ID 1, Titre 'Actualité de test !'. Row 2: ID 2, Titre 'Actualité avec image !'. To the right of the table are 'Actions' buttons for each row. At the bottom left is a 'Supprimer' (Delete) button. At the very bottom left is a 'Supprimer' button.
